## INVITATION TO THE EUSEW2022 EXTENDED PROGRAMME

*Together towards energy-efficient and de-fossilised agriculture*

AgroFossilFree is proud to invite you to a joint event organised online by the EU-funded projects that are part of AREA ZERO Cluster: [AgroFossilFree](#), [TheGreeFa](#), and [RES4LIVE](#). The event takes part this **Thursday 22nd September at 9:00h CET**.

The session "[Together towards energy-efficient and de-fossilised agriculture](#)" will focus on the current challenges of the European agricultural sector, and innovative approaches proposed by the EU-funded projects. First, the challenges will be presented by Anna Spoden (EUREC).

If you take part in this event, you will be also introduced to the solutions proposed by the three projects providing answers on how to overcome the challenges - innovative ways to increase the use of agricultural biomass for heating, technologies supporting the decoupling of fossil fuels through the integration of renewable energy sources in agriculture and livestock farming, heat and water recovery systems for greenhouses, and scalable approaches to the introduction of new efficient technologies for controlled environment agriculture.

At the end, a discussion between speakers will take place about problems and future of European agriculture, and necessary steps to reach the EU's climate goals. Questions from the audience will be answered after the discussion.

### Moderator:

- Anna Spoden, Communication and Policy Officer, EUREC

### Speakers:

- Martin Buchholz, Chief Executive Officer, Watery GmbH
- Dimitrios Tyris, Project manager/mechanical engineer, RES4LIVE
- Konstantinos Vaiopoulos, AgroFossilFree Project Manager / Electrical and Computer Engineer / Research Associate at iBO-CERTH

The European Sustainable Energy Week (EUSEW) extended programme comprises sessions that take place virtually or physically in the week of 19-23 September 2022 before the European Sustainable Energy week's Policy Conference. From workshops to panels, talks and other activities, the extended programme offers further opportunities to engage with issues surrounding sustainable energy and Europe's Green Deal objectives.

### About EUSEW 2022

The [European Sustainable Energy Week](#) (EUSEW) is the biggest event dedicated to renewables and efficient energy use in Europe and is organised by the European Commission's Directorate-General for Energy and the European Climate, Infrastructure and Environment Executive Agency (CINEA).

This year, EUSEW will take place in a hybrid format, online and onsite in Brussels, on 26-30 September 2022 under the theme "Going green and digital for Europe's energy transition". The European Sustainable Energy Week consists of a 4-day Policy Conference, the European Sustainable Energy Awards Ceremony, the Energy Fair, Energy Talks and the third European Youth Energy Day.
