DISCOVER THE BENEFITS OF BEING ON THE

AgEnergy Platform

The [AgEnergy Platform](#) is one of the most important results of the AgroFossilFree H2020 project. In this platform, you can find a wide range of

- commercial technologies
- scientific papers
- training materials
- research projects
- financing mechanisms

about fossil-energy-free strategies and technologies (FEFTS).

If you are a farmer, producer, researcher, agronomist, entrepreneur, manufacturer or simply interested in how to apply energy efficiency measures in agricultural activities and produce energy from renewable sources to serve a farm's needs, you could cooperate in the **evaluation and promotion of available fossil-energy-free strategies and technologies (FEFTS)**. Please read the following steps.

Not yet familiar with the platform? Then click and visit the [VIDEO PRESENTATION!](#)

FOLLOW THESE STEPS TO ADD OR ACESS FEFTS!

01

Go to
www.platform.agrofossilfree.eu

02

Click on "Log in" on the top right

[Subscribe](#)[Past Issues](#)[Translate ▾](#)

03

Then click on "Register" and enter your data

04

You will then receive a confirmation email in your mailbox

05

Go back to the Platform and click on "Add new FEFTS".
You are ready to go!

WHAT CAN THE PLATFORM OFFER YOU?

- **GAIN VISIBILITY:** After the project's end, the platform will remain open and fully operational for at least another five years.
- **ONE-STOP SHOP:** We offer you the platform to present your technologies and strategies to possible customers.
- **SIMPLE DESIGN:** Contains all the important information for your technology, directly on a single page layout card, in an easy and understandable way, especially for farmers as end users.
- **EASY TO FIND:** Enable your technology to be searched by end users with multiple criteria and a Decision Support Tool, to be found among stakeholders who could act as potential customers.
